

Tollco Sealing range

Single-sided Sealing Tape 30 meter

**Water-
proof
penetra-
tions.**

- **Perfect for sealing around pipes and joints.**
- **Flexible and water resistant.**

The white, single-sided sealing tape ensures that all pipe penetrations and joints are waterproof.

It has excellent adhesion and is both flexible and water resistant. It can be used both indoors and outdoors and attaches to clean and dust-free plastics, ceramics, glass, wood and metal etc. The sealing tape is made of polyisobutylene and is laminated with a soft flexible plastic film that should remain after installation. The water resistance has been tested and approved by RISE.
