

Tollco Whitegoods underlay Fridge/Freezer Pro

- **Detect water leakage in time.**
- **Prevents water damage under refrigerators and freezers.**

**Prevents
water damage.
Collects and diverts
condensation.**

Pro-series condensation protection is placed under refrigerators and freezers to prevent condensation and water damage. They are designed to quickly collect condensation and leakage from hidden areas and divert it out from the centre in front of the refrigerator and freezer. This way, you avoid unnecessary water damage.

The mat is transparent and made of impact-resistant polypropylene plastic and is available in one standard size. The assembly instructions are easy to follow and are of course approved by Säker Vatten. The product is also accepted in Byggvarubedömningen and assessed by Sundahus.

Meets the requirements

Tollco mats for the Standard and Pro series meet the requirements in Chapter 8, Section 4-3 of the Swedish Planning and Building Act in the respects and under the conditions specified in Type Approval 0505/01 and are therefore approved in accordance with the provisions in the following sections of the Swedish National Board of Housing, Building and Planning's construction rules: BBR: Hidden areas in rooms or building components 6:5334.
