Wine Cooler Standard

- **Detect water leakage in time.**
- **Prevents water damage under wine coolers.**

**Prevents
water damage.
Collects con-
densation.**

The standard series condensation protection is placed under wine coolers to prevent condensation and water damage. They are designed to quickly collect condensation and water leakage from hidden areas under wine coolers and diverts the water to the centre front of the cooler. This way, you avoid unnecessary water damage.

The mat is transparent and made of impact-resistant polypropylene plastic and is available in several standard sizes. The assembly instructions are easy to follow and are of course approved by Säker Vatten. The product is also accepted in Byggarubedömningen.

Meets the requirements

Tollco mats for the Standard and Pro series meet the requirements in Chapter 8, Section 4-3 of the Swedish Planning and Building Act in the respects and under the conditions specified in Type Approval 0505/01 and are therefore approved in accordance with the provisions in the following sections of the Swedish National Board of Housing, Building and Planning's construction rules: BBR: Hidden areas in rooms or building components 6:5334.
