

Tollco Sink Liner Standard

- Scratch-resistant surface
- Protection against moisture and wear
- Uniform design
- Easy to install
- Made of PP plastic
- Environmentally friendly packaging and transport

**Prevents
water damage.
Wear and tear
protection.**

The finish resembles of the surface of an orange and it is both scratch-resistant and stylish, as well as protective and easy to clean.

Tollco Sink Liner Standard provides a waterproof protection. The finish resembles of the surface of an orange and it is both scratch-resistant and stylish, as well as protective and easy to clean.

Improved modern design for faster and easier installation. The liners are anthracite grey and are placed directly on the bottom of the cabinet when building new kitchens or during renovation.

This is a customizable product series with several different sizes to fit various widths and depths.

The environmental benefits are also clear. PP plastic is a more sustainable material choice than many other alternatives, and up to 800 inserts fit on a single EU pallet – which reduces environmental impact during transport.

Tollco Sink Liner Standard installed in cabinets with water pipes and pipe penetrations creates a sealed surface layer when complemented with one of Tollco's Sealing Kits or seals, see www.tollco.se.

Meets the Requirements

Tollco liners for the Standard and Pro series meet the requirements of Chapter 8, Section 4, Item 3 of the Swedish Planning and Building Act (PBL), in the respects and under the conditions specified in Type Approval 0505/01, and are therefore approved according to the provisions in the following section of the Swedish National Board of Housing, Building and Planning's Building Regulations (BBR): Concealed surfaces in rooms or building components 6:5334.

Tollco Sink Liner standard 100x56-57,5 cm	100	56-57,5	22022034
Tollco Sink Liner standard 100x57,5-59 cm	100	57,5-59	22022035

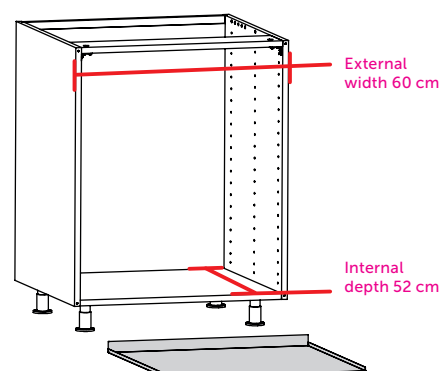

Measure like this to choose the right size of the sink liner:

Measure the external width of the cabinet, in our example it is 60 cm wide, so choose cabinet model 60 in the table.

Then measure the internal depth of the cabinet. In the example the internal depth is 52 cm, so choose 51.5–53 cm in the table.

Then select the article number that best fits from the table – in this case, it is article no. 22022011.

Example:

Choose article no: 22022011
